# DOES ESGI WORK ON AN IPAD OR TABLET?

- Yes! ESGI works great on any tablet! Open a browser (on an iPad, please use Safari), go to website, and login. Like any other web service, ESGI will only work if you are connected to the internet. We do not currently have an "App".

IMPORTANT NOTE: When scrolling your student list on the iPad, you must use TWO FINGERS to swipe. If you use 1 finger, it will scroll the whole screen rather than the student list.

- ALSO: It is not possible to design a test on a tablet. There is no way to drag images and text around. You must create tests on your computer.
- Remember, the ESGI site is just a web page. To zoom in or zoom out, you can use your pointer finger and thumb on the screen at the same time and draw them closer together or further away.

# PRE-LOADED SYSTEM ASSESSMENTS

---

## SAMPLE

08/06/2014 Name: Chris Banner Subject: Pre-Reading

Dear Parent(s) / Guardian(s) of Chris Banner

This letter contains some information that I would like to share with you. Below are some items that your child Chris did not answer correctly on the last assessment. Please keep this letter as a check-off list of things to work on with your child. This one-on-one time you spend working with your child is essential, and greatly appreciated.

Thanks for your support,

Mrs. Flowers
